

# Maid of 500 Attack Freight Crew

Men Are Finally Rescued  
From Hail of Stones in  
Railroad Strike.

Pittsburg, Pa., March 30.—A freight crew on the Monongahela division of the Pennsylvania railroad, which was attacked early today at Frederick, Pa., by a mob of 500. Stones were thrown and shots fired, but no one was hurt. The crew was finally rescued by police sent from Brownsville. This was the most serious of a series of disturbances that characterized the strike of trainmen on the division during the night.

The information reached here at noon that leaders of the United Mine Workers at Uniontown, Pa., had called out members of the unions in the mines which supplied coal to the Pennsylvania, until the strike of the Monongahela division was settled. The

order, effective today, will bring out approximately 6000 men.

Freight officials assert that the Monongahela division is fully manned and freight and passenger trains moving regularly.

**No Joke.**  
A New Orleans man has a claim before the United States supreme court for \$50,000 for the loss of his whiskers, cut off by a political opponent so that he could not identify himself at a voting place. The supreme court has an opportunity to set a value on whiskers which will forever remove them from the field of humor.

The brush that once on Reuben's chin provoked the jeers of scurrilous jesters. The bounteous, billowy ambrosia. That tempted wandering souls westward. No longer shall be food for mirth. Since our emerald bundles of sealions Has duly been appraised as worth Some sixty thousand cold simoleons.

No longer may we like and pine. When groggans flash across our vision. Or greet the sprout or fire escape With grins of innocent derision. We never shall regard again A set of jumpson weeds as funny. Far be it from our reverent pen To jest at anything worth money.

## Chinese, By Shearing Queues, Outwit Mike the Cop Who Made Raid

San Francisco, Calif., March 30.—Single handed, patrolman Michael Miller raided a gambling den in Chinatown last night and corralled 30 Orientalists. He had only five in tow, however, when he reached the station house.

"You should know better, Michael," admonished the desk sergeant, "than to try to arrest so many of them fellows all by yourself. How did you expect to bring them all in?"

Michael grinned sheepishly. "I haven't on the Chinatown beat since the Chinese turned Republicans and started to patronize the barber shops. In the old days a cop with a wooden leg could have pinched 30 of these fan tan boys. But when I made me raid and reached for their scalps, I found that every blessed advertisement had got a hair cut, and so I couldn't tie their queues together. It was plain, it might lay down on the police force when they cut off their pig tails."

## AMUSEMENTS.

The Wigwam today and tomorrow will show the great five reel European feature, "Germinal." This is the production which the Pathé Freres claim is the most masterly and Pathé Freres are the acknowledged leaders of the world in picture production. The cast is a remarkable one. The French actor, Jean Henri Krauss, "the Henry Irving of France," in the leading role, "Germinal" was run for several months in the leading houses of Europe and created a sensation. It was then announced for release in America and Pathé Freres advertised it for over two months with full page advertisements each week before they even announced the date it could be shown in this country.

March 16 and El Paso gets it just two weeks after its release in this country. The critics are enthusiastic over it and it should be one of the most pleasing films of the year. The admission will be 10 cents for children and 20 cents for adults.—Advertisement.

## HEALTH OF THE PHILIPPINES IS GREATLY IMPROVED

Washington, D. C., March 30.—A feature of the new administration in the Philippines is the educational program which is to be greatly enlarged and popularized. Vice governor Martin, according to advices here, has determined to devote himself especially to the improvement of the health of the school children.

Already remarkable results have been attained in this direction in the Philippine schools, following the successful "corn campaign" which brought about a great dietetic reform among the children. In the Manila schools alone last year, out of 24,555 children examined, 7819 required medical attention and, as a result, the more serious forms of skin diseases and trachoma are now under control.
